The Association is funded by member participation in scheduled events and fund-raising activities, including corporate donations.

**2. SIGNIFICANT ACCOUNTING POLICIES**

The financial statements have been prepared in accordance with the Chartered Professional Accountants of Canada ("CPA Canada") Handbook - Part III, Accounting Standards for Not-for-Profit Organizations ("ASNPV").

The significant accounting policies are as follows:

a) **Donations**

The Association depends on donated services of many volunteers. Since these services would not ordinarily be purchased by the Association and because of difficulty in determining their fair value, they are not recognized in these financial statements. However, donations of goods and services for which a fair value can be reasonably estimated are reflected in the Association’s financial statements at fair value on the date donated.

b) **Cash**

Cash is comprised of balances held in current and savings accounts.

c) **Revenue recognition**

Donations are recognized as revenue when received or receivable if the amount can be reasonably estimated and collection is reasonably assured. Donations received relating to future periods are deferred and reported as deferred revenues.

Registration fees and membership fees are recorded as earned. Fees received relating to future periods are deferred and reported as deferred revenues.

Interest and other income are recorded as earned.

d) **Capital assets and depreciation**

Capital assets are recorded at cost, which is charged to income over the estimated useful life of the respective asset, which is three years. Capital assets consist of masts and hulls. Given these items are not material to the charity, the accounting policy changed in 2019 to just charge these items to the reporting period.

e) **Use of estimates**

The preparation of financial statements in conformity with ASNPV requires the executive committee to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While the executive committee believes that the amounts included in the financial statements reflect the Association’s best estimates and assumptions, actual results could differ from these estimates.
3. DEFERRED REVENUES

Deferred revenues consist of one, two and five-year membership fees received which are deferred over the membership term.

4. VOLUNTARY SERVICES AND DONATIONS

The audit fee is recorded at its fair value of $15,000 (2019 - $15,000) and is included in revenue and expenses at this value to reflect services rendered.

5. ECONOMIC DEPENDENCE

The Association’s sustainability is dependent upon contributions from players and continuing public support.

6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Association’s financial instruments consist of cash, accounts receivable and accounts payable and accrued expenses.

Fair values

The carrying value of the financial instruments approximates fair value due to their short-term nature.

Credit risk

Cash and accounts receivable potentially expose the Association to credit risk. In the Association’s opinion, the risk of loss due to credit risk is not significant as cash is placed with a high credit-quality financial institution and accounts receivable are reviewed on a regular basis for any uncollectable amounts.

Liquidity risk

Liquidity risk is the risk that the Association will not be able to meet its financial obligations as they fall due. The Association manages its liquidity risk by ensuring it always has sufficient cash to meet its obligations when due and the executive committee continuously monitors and reviews cash flow.

It is the executive committee’s opinion that the Association is not exposed to significant interest rate or currency risks from these financial instruments.
